

Soothing Breezes? Island perspectives on climate change and migration

Author(s): Connell J

Journal: The Australian Geographer. 44 (4): 465-480

Abstract:

This century the possibility of climate change-induced environmental migration (or multiple variants on that terminology) has increasingly been declared imminent and inevitable, seemingly on a vast, hitherto unprecedented scale. Numerous publicists, journalists and polemicists, notably Al Gore (2006) in his *An Inconvenient Truth*, have argued that this is already happening, and have come up with extraordinary numbers of people who will be affected in the near future.

Resource Description

Exposure :

weather or climate related pathway by which climate change affects health

Unspecified Exposure

Geographic Feature:

resource focuses on specific type of geography

Ocean/Coastal

Geographic Location:

resource focuses on specific location

Global or Unspecified

Health Impact:

specification of health effect or disease related to climate change exposure

General Health Impact

Resource Type:

format or standard characteristic of resource

Policy/Opinion

Timescale:

Climate Change and Human Health Literature Portal

time period studied

Time Scale Unspecified
